EDUCATION AND TRAINING

29/04/2019 – 02/07/2024 Dhaka, Bangladesh

BACHELOR OF SCIENCE (B.SC.) IN CIVIL ENGINEERING Bangladesh University of Engineering and Technology (BUET)

The B.Sc. in Civil Engineering at BUET provided broad training across core civil engineering areas, with a specialization in structural engineering in the final semesters.

- occupational techniques (structural analysis and design of reinforced concrete and steel structures)
- science applied to engineering (engineering mathematics, mechanics, material behavior, structural dynamics)
- occupational technology (use of structural analysis software, numerical modeling, finite element concepts, construction safety)
- research and professional practice (structural health monitoring, vibration-based damage detection, design codes, and engineering standards)

Result: CGPA 3.67 out of 4.00 (Published in 2024)

Level in EQF EQF level 6

01/06/2016 – 10/10/2018 Dhaka, Bangladesh

HIGHER SECONDARY SCHOOL CERTIFICATE EXAMINATION Dhaka Residential Model College

Studied a broad range of subjects including Bangla, English, Physics, Chemistry, Biology, and Mathematics. Gained strong analytical and problem-solving skills through science and math. Developed laboratory techniques and safety awareness.

Result: GPA 5.00 out of 5.00 (Published in 2018)

Level in EQF EQF level 4

01/01/2014 – 15/05/2016 Dhaka, Bangladesh

SECONDARY SCHOOL CERTIFICATE EXAMINATION Safiuddin Sarker Academy and College

Studied a broad range of subjects including Bangla, English, Physics, Chemistry, Biology, Mathematics, Higher Mathematics, Religion, and Social Science. Developed laboratory techniques, safety awareness.

Result: GPA 5.00 out of 5.00 (Published in 2016)

Level in EQF EQF level 3

WORK EXPERIENCE

UNIVERSITY LECTURER IN ENGINEERING – DAFFODIL INTERNATIONAL UNIVERSITY – 03/07/2024 – Current – DHAKA, BANGLADESH

As a Lecturer in the Department of Civil Engineering at Daffodil International University, I am responsible for teaching, supervising, and contributing to academic and research activities.

- Teaching undergraduate courses in civil engineering.
- Preparing and delivering lectures, tutorials, and laboratory sessions.
- Developing course materials, question papers, and grading scripts.
- Supervising student projects and providing academic guidance.
- Conducting research and supporting departmental academic activities.

SKILLS

Microsoft Office | MATLAB | C | C++ | Python | HTML | Pandas | Numpy | Matplotlib | Seaborn | Scikit-Learn | Keras | PyTorch | Machine Learning | Deep Learning | Jupyter Notebook | Tensorflow | Neural Networks and Deep Learning | AutoCAD | ETABS | SAP | SketchUP | Linux | Adobe Software | Primavera P6

● **LANGUAGE SKILLS**

Mother tongue(s): **BANGLA**
Other language(s):

	UNDERSTANDING		SPEAKING		WRITING
	Listening	Reading	Spoken production	Spoken interaction	
ENGLISH	B2	B2	B2	B2	B2

Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user

● **CONFERENCES AND SEMINARS**

25/04/2025 – 27/04/2025 Dhaka, Bangladesh
IUT International Conference on Civil Engineering and Technology (IUT-ICCET) 2024

Presented a research paper titled "A Deep Semi-Supervised Learning based Damage Identification of a Bridge Using Vehicle-Induced Dynamic Displacement and Multilayer Perceptron Model" as first author.

● **PUBLICATIONS**

2024
[A Deep Semi-Supervised Learning based Damage Identification of a Bridge Using Vehicle-Induced Dynamic Displacement and Multilayer Perceptron Model](#)

This study proposes a deep semi-supervised learning approach for identifying structural damage in bridges using vehicle-induced dynamic displacement data and a Multilayer Perceptron model. The research integrates machine learning techniques with structural health monitoring principles.

Siddique, S., & Rana, S. (2024). A Deep Semi-Supervised Learning based Damage Identification of a Bridge Using Vehicle-Induced Dynamic Displacement and Multilayer Perceptron Model. IUT Journal of Engineering and Technology.

Authors: Sakib Siddique, Shohel Rana | **Journal Name:** IUT Journal of Engineering and Technology (IUT JET) | **Volume, Issue and Pages:** Vol. 19, No. 2, pp. 479-487 | **Publisher:** Islamic University of Technology

● **HONOURS AND AWARDS**

02/07/2024
Dean's List Scholarship – Bangladesh University of Engineering and Technology (BUET)

Awarded for excellent academic performance during undergraduate studies in Civil Engineering.

02/07/2024
Technical Scholarship – Bangladesh University of Engineering and Technology (BUET)

Awarded for exceptional achievement in technical courses during undergraduate studies.

01/06/2016
Bangladesh Government Scholarship – Dhaka Education Board

Awarded for academic excellence in the Secondary School Certificate (SSC) examination.

● **PROJECTS**

01/06/2023 – 04/07/2024
Rainwater Harvesting in BUET Area and Redevelopment of Nazrul & Ahsanullah Hall Canteen Area

Led a team to conduct feasibility studies, surveys, and data collection to evaluate water harvesting potential. Developed alternative design solutions considering geotechnical, structural, environmental, and transportation factors. Oversaw project planning, design, and report preparation.

01/02/2024 – 05/07/2024
Climate-Resilient and Inclusive Latrine Superstructure Designs for Rural Communities in Bangladesh

Collaborated with BUET research assistant on a funded research project. Prepared detailed AutoCAD drawings for inclusive toilet facilities designed to accommodate diverse user needs, contributing to improved sanitation solutions in rural communities.

04/04/2023 – 03/08/2023

Floor Area Ratio (FAR) Calculation for Ehsan Architects LTD

Implemented Python-based algorithms to calculate and analyze building density, ensuring compliance with local zoning regulations and contributing to efficient architectural planning.

05/06/2023 – 01/02/2024

Design and Analysis of a 15-Storey Residential Building

Conducted structural analysis and design in accordance with BNBC 2020 guidelines. Performed FEM analysis using ETABS 2020 and designed structural components for a special moment-resisting frame

07/05/2023 – 05/11/2023

Design and Analysis of a Steel Warehouse

Performed FEM-based structural analysis and design of steel warehouse structures using SAP2000, ensuring compliance with BNBC 2020 standards.

07/03/2023 – 08/08/2023

Tender Competition: Development of a 6-Storey Residential Building

Estimated Bill of Quantities (BOQ) and prepared tender documents as part of CE 302 course, successfully submitting a competitive tender bid.
